Costly Fire at Minneapolis.

Minneapolis, Oct. 11.—The ware-  
house of the International Harvester  
company, 432 First street north, was  
destroyed by fire early Friday morn-  
ing. The loss is estimated at \$100,-  
00. The building which was located  
in the center of a row of implement  
warehouses was a five-story brick  
structure. The fire started in the  
wareroom in the rear and spread  
rapidly.

## DID NOT GET MONEY

Oil Trust Employee Ignorant of  
Enormous Loans.

ACCORDING TO TRUST BOOKS

Millions of Dollars Had Been Paid to  
a Purchasing Agent of the Combine.  
How Market Price of Crude Oil Is  
Fixed.

New York, Oct. 11.—Loans of over  
\$20,000,000, which the books of the  
Southern Pipe Line company show  
were made to P. S. Trainor between  
1899 and 1905 became more puzzling  
of solution to Frank B. Kellogg, con-  
ducting the federal suit against the  
Standard Oil company, Thursday,  
when Mr. Trainor, taking the witness  
stand in the oil suit, testified that the  
money had never been paid to him  
and that he had never heard of the  
accounts. The Southern's books show  
that unsigned vouchers were received  
for these loans and that the money  
was never handed back to the com-  
pany. Mr. Trainor said that he was  
formerly crude oil purchasing agent  
for the Standard Oil Company of New  
York and as such purchased all the  
oil and sold it to the refineries. He  
said he acted in a similar capacity  
now for the Standard Oil Company of  
New Jersey. Mr. Kellogg called Mr.  
Trainor's attention to the various  
loans, amounting to over \$20,000,000,  
which were made by the Southern  
Pipe Line company and charged to  
"P. S. Trainor," and asked him to tell  
all he knew concerning the loans.

Never Heard About the Loans.

"I do not know anything about these  
loans," answered Mr. Trainor. "I had  
an oil account with the Southern com-  
pany, but no money account. I never  
gave them any vouchers and never  
heard anything about the loans."

Mr. Trainor said that he fixed the  
price paid for crude oil after consult-  
ing with John D. Archbold, vice pres-  
ident of the Standard. These consulta-  
tions were held daily. Mr. Trainor  
said, and after they were over he made  
public the market price of crude oil.

H. M. Tilford, treasurer of the  
Standard Oil Company of California  
and president of the Continental Oil  
company, when asked to produce the  
report of the Continental company,  
testified that whenever a new report  
was received he invariably destroyed  
the old one. The reports of the Con-  
tinental contained information regard-  
ing business done by competing oil  
companies.

Mr. Kellogg will have a conference  
with Attorney General Bonaparte at  
Washington to discuss the progress  
of the government's case against the  
Standard Oil company.

## DISPUTE OVER POTATOES.

Results in Death of One Man and  
Wounding of Two Others.

Columbus, O., Oct. 11.—As the result  
of a dispute over a dish of potatoes in  
a restaurant on East Town street  
Adam J. Neece, aged thirty-five, is  
dead, Fred Henderlick, a waiter in the  
restaurant, is lying in a hospital in a  
critical condition with a bullet in his  
head, and Patrolman James Lot-  
speich has a bullet wound in his hand.  
When Neece came into the restaurant  
and ordered his supper he had a dis-  
pute with the waiter, Henderlick,  
about his potatoes, which he claimed  
were not cooked enough. Without  
warning Neece drew a revolver and  
fired at Henderlick, who fell wounded  
in the head. Neece then rushed out  
of the restaurant and ran to his room-  
inghouse on Rich street, to which  
place Patrolman Lotspeich went.  
Neece met the officer at the head of  
the stairway and pointed his revolver  
to shoot when the patrolman grabbed  
the weapon and received the bullet in  
his hand. The officer then fired three  
bullets into Neece's body, killing him  
instantly. Nothing is known of Neece,  
who is a stranger here.

Russian Prince Killed.

Tiflis, Oct. 11.—The body of Prince  
Tzereteli, a cousin of Prince I. G.  
Tzereteli, member of the late duma  
from Kutais, was found hacked to  
pieces in the suburbs of Gori.

## RUN ON MINNEAPOLIS BANK

Clearing House Committee Declares  
Institution Is Sound.

Minneapolis, Oct. 11.—A run on the  
Farmers and Mechanics' bank of this  
city, which has been developing for  
several days, culminated Thursday  
when about \$200,000 was drawn out.  
During the week \$400,000 has been  
drawn out of total deposits of about  
\$13,000,000. As a result of the run, a  
statement was issued by a clearing  
house committee stating that the bank  
is in excellent condition.

The bank, which is a savings in-  
stitution, has 54,000 depositors, about  
4,000 of whom during the past few  
days have inquired concerning the  
bank's condition.

"The bank is solvent beyond a  
doubt," said John De Laitre, presi-  
dent of the institution. "It holds no  
mortgage or bonds that it would be  
willing to lose. No trustee of the bank  
and no member of the family of a  
trustee owes the bank a dollar. All  
depositors will be paid dollar for dol-  
lar and the general feeling among  
them is one of confidence."

## LIKELY TO CAPTURE FEZ.

Mulai Hafig's Power Has Been Great-  
ly Strengthened.

Tangier, Oct. 11.—The power of  
Mulai Hafig, who has been proclaimed  
sultan of the south, has been greatly  
strengthened in that part of Morocco  
by the declaration of the Ulemas, or  
holy men, at Fez, that he has more  
legal and moral right to the throne  
than has Abdul El Aziz, the sultan of  
record. This, coupled with the ap-  
proach of Mulai Hafig's army upon  
Fez, augurs a speedy capitulation of  
the northern capital.

## BREAKS ALL THE RECORDS

Steamship Lusitania the Fast-  
est on the Atlantic.

New York, Oct. 11.—The Cunarder  
Lusitania, with practically all the  
transatlantic records to her credit, ar-  
rived abeam the Sandy Hook light-  
ship at 1:25 a. m. Friday. The time  
for the trip from Daunt's Rock to the  
Sandy Hook lightship, the official  
course over which speed trials were  
made, was four days, twenty hours.  
The last day's run was apparently the  
fastest of the trip, the giant liner hit-  
ting up her speed to 25 knots an hour  
over a smooth sea with little wind to  
interfere with her. The Lusitania  
beats her time for her maiden trip by  
approximately five hours, her time on  
that trip being five days, fifty-four  
minutes.

The Lusitania's time averages al-  
most exactly 24 knots an hour for the  
entire trip. Her arrival at 1:20, or  
five minutes earlier than she passed  
the lightship, would have made her  
speed exactly 24 knots. Her average  
on her first trip was 23.01 knots.

With the Lusitania's trip the Cunard  
line and England capture from Ger-  
many the eagerly sought record for  
possessing the fleetest ship on the  
Atlantic. The Hamburg-American liner  
Deutschland has held the record for a  
number of years.

## ANTI-GERMAN CRUSADE.

Remarkable Campaign Begun by the  
London Times.

London, Oct. 11.—The London Times  
has unexpectedly embarked on a re-  
markable anti-German crusade. Thurs-  
day it made an attack editorially on  
Prince von Buelow, the German im-  
perial chancellor, who is coming with  
Emperor William on his majesty's  
visit to England, which has been  
strongly resented by the London  
Liberal paper. Friday in another edi-  
torial article it attacks strongly Ger-  
many's attitude at The Hague peace  
conference on the authority of its cor-  
respondent at The Hague, who de-  
clares in a dispatch that the fiasco of  
obligatory arbitration has been  
brought about by Germany's opposition.  
The Times accuses German statesmen  
of a desire to isolate Great Britain,  
and in this connection says:

"The debates at The Hague have  
one conspicuous advantage from  
which, if we are wise, we may profit.  
They have laid bare the degrees of  
sincerity and insincerity with which  
the several powers worship peace and  
they have revealed not obscurely the  
fashion in which some of them hope  
on occasion to wage war."

## STOLE MERCHANDISE.

Italian Laborers Robbed Freight Cars  
on the Burlington.

Denver, Oct. 11.—Over \$500,000  
worth of merchandise has been stolen  
on the Burlington railroad in transit  
between Chicago and Denver during  
the past year, and 300 Italian laborers  
who pilaged freight cars have been  
discharged, according to a report pub-  
lished in the Times. It is said that  
secret service agents ferreted out the  
system by which the robbers were  
constantly committed, but failed to ob-  
tain evidence sufficient to convict any  
of the thieves.

## MRS. CHADWICK DEAD

Passes Peacefully Away in  
the Ohio Penitentiary.

NOT EVEN A FRIEND THERE

Only the Prison Physician and His At-  
tendants Present When the Famous  
Prisoner Breathed Her Last—Victim  
of Total Nervous Collapse.

Columbus, O., Oct. 11.—Mrs. Cassie  
Chadwick, whose amazing financial  
transactions culminated in the wreck-  
ing of an Oberlin (Ohio) bank, died in  
the woman's ward at the Ohio peni-  
tentiary Thursday night at 10:15  
o'clock. Mrs. Chadwick had been in a  
comatose condition for some hours  
previous to her death and the end  
came peacefully. No friends or rela-  
tives waited at her bedside; only the  
prison physician and his attendants.  
Her son, Emil Hoover, had been sum-  
moned from Cleveland, but he did not  
arrive until fifteen minutes after his  
mother was dead.

The decline in Mrs. Chadwick's  
health began almost from the time  
she entered the penitentiary on Jan.  
12, 1906, sentenced to ten years' im-  
prisonment. She fretted incessantly  
over her confinement and worried  
about her troubles until it became al-  
most impossible for her to sleep. At  
times she was so peevish the patience  
of the prison officials was sorely tried.

Mrs. Chadwick was a robust and  
healthy looking woman when she came  
to the prison, but she gradually  
wasted away and had lost fully thirty  
pounds at the time of her death. Her  
last illness dated back about three  
weeks, when she suddenly collapsed  
during an interview with her son, Emil  
Hoover. She was confined to a cot in  
the hospital of the women's ward from  
that time until her death. At times  
she became delirious but she never  
talked of her misfortunes during these  
periods. The physicians declared  
Mrs. Chadwick was the victim of a to-  
tal nervous collapse, described in  
medical science as neurasthenia.

Her Son Arrived Too Late.

Mrs. Chadwick's son, Emil Hoover,  
visited her last Sunday, but returned  
to Cleveland. When it was apparent  
that Mrs. Chadwick was dying he was  
notified, but he did not arrive be-  
fore the end came. Two sisters,  
Mrs. S. M. York of Cleveland, and Mrs.  
Weston of Windsor, Can., were also  
notified of Mrs. Chadwick's condition,  
but neither has been heard from.

Mrs. Chadwick's husband, Dr. Leroy  
S. Chadwick, is living in Florida.

Mrs. Cassie L. Chadwick, whose  
maiden name was Ellizaogeth Bagley,  
was a native of Woodstock, Can. She  
first came into public notice in To-  
ledo, O., about twenty years ago, where  
she told fortunes under the name of  
Madame Deviere. While in this city  
she forged the name of Richard  
Brown of Youngstown, O., and for this  
crime was sent to the penitentiary at  
Columbus for nine years.

She served but a portion of the sen-  
tence and then located in Cleveland,  
where she married a man named  
Hoover. Her second husband was Dr.  
Leroy S. Chadwick of Cleveland, a  
man of good family and excellent  
standing in his profession.

In the latter part of 1902 or early  
in 1903 Mrs. Chadwick in the pres-  
ence of her husband, gave to Irl Rey-  
nolds, the cashier of the Wade Park  
bank of Cleveland, a box containing  
notes signed with the name of Andrew  
Carnegie. These forged notes are al-  
leged to have amounted to \$7,500,000.  
Reynolds gave Mrs. Chadwick a re-  
ceipt for the papers, which described  
the notes and the signatures upon  
them. Mrs. Chadwick left with Rey-  
nolds as an explanation of the exist-  
ence of the notes the statement that  
she was a natural daughter of Carne-  
gie.

Fleeced Banks and Capitalists.

With the receipt of Reynolds in her  
possession, Mrs. Chadwick went to  
different banks and many capitalists and  
obtained large loans. The extent of  
these transactions will never be fully  
known, but they ran up into the mil-  
lions. They involved men of high  
standing in the financial world and  
caused heavy losses to many banks.

In November, 1904, she was sued  
by a man named Newton of Brookline,  
Mass., from whom she had borrowed  
a large amount, which she was un-  
able to pay. Other creditors came  
down upon her and she was placed un-  
der arrest by the federal authorities  
on the charge of conspiring with  
Charles Beckwith, the president, and  
A. B. Spear of a national bank at  
Oberlin, O., which had been sub-  
stantially looted.

Mrs. Chadwick had obtained from  
this institution such large sums of  
money that it was compelled to close  
its doors, causing heavy losses to the  
depositors and ruining many of them.

Mrs. Chadwick, Beckwith and Spear  
were indicted for a variety of of-  
fenses against the national banking  
laws. Beckwith died before coming  
to trial. Spear pleaded guilty, was  
sentenced to prison for five years, and  
is now serving time at the Ohio peni-  
tentiary.

are not an expensive lot, either

To select a coat from our line is to select from a line that  
is an unusually large line for a city the size of Brainerd. Best  
of all, there are not many duplicates. Of the better coats  
we have only one and two of a kind. They are priced to  
meet the purses of all: \$4.48, \$6.98, \$7.98, \$10.00, \$14.00,  
\$19.00, \$25.00 and up to \$65.00.

Indicted Lumbermen in Court.  
Minneapolis, Oct. 11.—Eighteen  
Northwestern lumbermen, indicted by  
the federal grand jury on charges  
brought by the retail mail order  
houses that they have tried to ruin  
the catalogue business by means of  
the "little black book," appeared in  
the federal court Thursday to listen to  
the arraignments against them and  
asked for time in which to prepare  
their pleadings. N. S. Darling of  
Oklahoma City, the nineteenth lumber-  
man indicted, was unable to attend,  
and by stipulation was represented by  
C. J. Taxler. Judge Munger granted a  
stay of time until Nov. 1.

Cholera Spreading in Russia.

St. Petersburg, Oct. 11.—The cholera  
in Russia shows no signs of diminish-  
ing, but on the contrary it is spread-  
ing steadily. Every province that suf-  
fered from famine last year is now in  
the grasp of the cholera scourge and  
every day hundreds of new cases are  
reported.

New World's Champion.

Lexington, Ky., Oct. 11.—Tramp

Through misunderstanding a notice sent in over the telephone the art needle exhibit was announced for this afternoon instead of tomorrow afternoon as it should have read. It is always safest to write out all such notices and hand in or mail them to the office. In this case the reporter misunderstood the day of the week and when he repeated it back, the one telephoning in misunderstood him. This is mentioned here that all may understand the need of writing out such notice and sending them in in order to avoid mistakes.

Princess to Marry a Singer.

Leghorn, Sept. 24.—It is declared here that the Countess Montignoso, the former crown princess of Saxony, and the divorced wife of King Frederick Augustus, has announced her approaching marriage in London with an Italian singer named Toselli, who was her daughter's music teacher. The princess says she will not mind losing the allowance paid her by the Saxon court, as she has a million of her own.

## OUR BRAINS ARE DOUBLE.

But Only One of Them Is Used to Think With.

Man has a pair of brains just as he has a pair of eyes and a pair of ears, declares Dr. William Hanna Thomson in Everybody's. But, asserts Dr. Thomson, only one of our two brains is used to think with. He continues: "When we come into this world we have a pair of quite thoughtless brains and nothing more. To become intelligent beings we must acquire a whole host of mental faculties and endowments, not one of which does a human being bring with him at birth. No one was ever born speaking English nor any other language. No newly born babe knows anything by sight nor by any other sense. Every kind of knowledge has to be gained by personal education. But only recently have we found that this education necessitates the creation of a local anatomical change in brain matter to make it the special seat for that 'accomplishment.' Thus no one can become a skilled violin player until by long fashioning he has at last made a violin playing place in his cerebrum.

"But all this brain fashioning takes so much time and trouble that for mere economy of labor, as one hemisphere will do all that is necessary, the individual spends his efforts on one of them only. As both hemispheres are equally good for this purpose, which of the two he will educate depends on which one he begins with. This is settled for him when as a child he begins all his training by the hand that he then most easily uses; hence it is that all the speech centers and all the knowing and educated places are to be found only in the left hemisphere of the right handed and in the right hemisphere of the left handed."

The Landlady's Mistake.  
On her first night at the seaside lodgings the visitor found it. Incredible it seemed, for the landlady had appeared a neat, cleanly, cautious body. But as the lady visitor knew little of her landlady and nothing of her predecessor in the apartment she decided to mention the matter at breakfast. "I found something in my bedroom," she began, and the landlady interrupted. "Then you must have brought it with you!" "I am quite sure I didn't," said the visitor, "for I counted all mine before I left home. But if you insist that this sovereign is mine, of course"—London Chronicle.

## ZOOLOGICAL UMBRELLAS.

Handles Adorned With Jeweled Animals the Rage Now.

Diamond pigs, diamond horses and even diamond birds are out of fashion, and no one ever dreams of wearing such ornaments any more. Indeed, jewelers will not permit their customers to think of such designs. But the "zoological umbrella" is an absolute necessity to the woman who respects her autumn hats and gowns, says the New York Press. For several seasons umbrellas with the head of a bird or animal carved on handles have had little vogue, but the fad at present is at fever heat.

One girl who recently returned from Paris brought home an umbrella whose top is a marvel of delicate workmanship. From a thick gold ring rises a slender column of the palest pink quartz, and on the column is perched a little dog with emerald eyes. The dog is beautifully carved in quartz, and round its neck as the last touch of realism is a tiny gold collar set with seed pearls. Another quaint design which has been seen this fall is a small gold fox terrier gazing intently into the horn of a silver phonograph.

## Weighting a Horse's Stern.

Some of the officers and men of a vessel once anchored in the harbor of Funchal, Madeira, went ashore for a horseback ride around the island. About halfway up the mountain we came across a little mizen-topman, flushed and evidently very warm, riding a spirited little horse with a stone tied up in a silk handkerchief slung to his tail.

The first lieutenant laughed and said, "What are you doing with that handkerchief, Brown?" "Why, you see, sir," said Brown, "that when I first hitched her up she pitched badly, being too much by the head, so I just rigged this stone on aft and brought her down to her bearings, and she sails now like a clipper, sir."—"On a Man-of-war."

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years it was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. ### TALKS TO STUDENTS

#### State Forestry Commissioner Andrews Talked to High School Students Today

Forestry Commissioner Andrews accompanied by Prof. Green and Mr. Detwiler of the Minnesota University yesterday visited the Pillsbury reserve and this morning at 9 o'clock the former gave a short talk on forestry before the high school. He said the forestry board last spring had 285,000 three year seedlings, mostly spruce, which had been grown in a nursery there, planted on an actual area of 185 acres and from varied counts it appeared that 95 per cent of the seedlings were living. Gen. Andrews explained forestry as the science of raising crops of trees for profit. The great fact in forestry he said is that it utilizes waste on agricultural land that is too hilly, rocky or sandy for field cultivation. On such land it takes about eighty years for the pine to grow to merchantable size. Individuals will not raise such crops, the state must do it. Forest preservation does not mean that trees shall not be cut, but that the forest shall be protected from fire and waste; treated as an inviolable capital and trees cut when they have ceased to earn good interest by their growth. He was of the opinion that not exceeding one-tenth of the area, if even that, of cut over pine land would become well stocked with pine naturally. The land, when not good for field crops, should be planted with pine. As indicating the progress forestry was making in this country he said about a dozen years ago congress appropriated annually for forestry only \$25,000. At the last session it appropriated \$2,400,000 for the present fiscal year. But this it must be remembered is for strictly national forestry and does not pay any state expenses for such work.

## DISTURBING PEACE IS THE CHARGE

Four Parties Alleged to Have Been Implicated in Affair Tuesday Night Arrested

### CASE CONTINUED ONE WEEK

#### County Attorney Stated That One of the Victims was Reported Liabale to Die

Michael Goedderz, Isaac Sundquist, John Gabiou and Wm. Gustafson were arraigned this morning in municipal court on a complaint alleging riot Tuesday night last. The complaint and warrant included the name of Arthur Witham, but he was not arrested, being out of town. Judge Fleming appeared for the accused men. The case was continued for one week, the defendants being placed under a joint bond of \$400 signed by Louis F. Hohman and Martin Witham as security. In asking that they be placed under bonds pending a continuance the county attorney stated to the court that he had what he believed to be reliable information that one of the victims of the assault was in a critical condition and likely to die, in which case the charge would be homicide.

After the adjournment of court the county attorney and chief of police examined the contents of the suit case found by the car repairers after the fracas. It had been slit lengthwise by a knife and the sides torn out. There were a number of letters all in German, also pass port and inspection certificate in the name of Gustav Geller, who, according to the papers, was a resident of Breslau, Germany, and sailed for America May 10, 1902, arriving in New York, May 20, 1902. In addition to these there was a complete letter writer printed in English and a diary or family record of some sort in German. The name and address of an uncle who lived in Chicago was also found.

#### Letter to Prof. Hanft, Brainerd, Minn.

Dear Sir: You are a teacher; here's one of your boys:

If the painting costs two or three times as much as the paint, and one paint goes twice as far as another, how much are those paints worth?

If Devoe is worth \$1.50 or \$1.75 a gallon, how much is the other one worth?

How much is a gallon of worth anyhow?

The answer is: Depends on the paint. The reason is: paint isn't always paint. There are true and false paint and short-measure.

How much is a short-measure gallon worth? How much is false paint worth? How much is Devoe worth?

There are millions a year in the answer to this last one.

### CUPID GETS BUSY

Two Weddings Yesterday--One in Platt Lake and One in Brainerd--Both Pretty Affairs

Thursday did not seem to be Don Cupid's Jonah day this week. He was busily engaged and incidentally kept Rev. J. F. McLeod hustling. Two weddings in one day and twenty miles apart is a pretty good stunt.

#### LEACH-DODD

A very pretty home wedding occurred Thursday evening at the home of Mr. and Mrs. E. A. Leach, 624 South Broadway, when their daughter, Miss Minerva Leach, became the bride of Wallace Dodd, of Deer Lodge, Montana.

The ceremony took place in the bay window of the parlor, which, like the entire house, was handsomely decorated with autumn leaves and potted plants. The ceremony took place at 9:30, the wedding march being beautifully played by Miss Mabel Smythe, who also played a beautiful selection, "Lillies of the Valley," before the ceremony. The solemn words which made the young people man and wife were spoken by Rev. J. F. McLeod, in the presence of about forty relatives and friends. After the ceremony a wedding supper was served, the happy couple taking the midnight train for the twin cities where they will visit for a few days. They will return for a brief stop in Brainerd, after which they will go to Deer Lodge, Montana, where they will make their future home.

The bride was beautifully arrayed in French lawn with all over embroidery and Valenciennes lace, made baby princess and carried white carnations. Miss Hazel Kirk Nelson, of Fergus Falls, a cousin of the bride, was maid of honor and was attired in Persian lawn, trimmed with baby Irish lace. She carried pink carnations. Mr. Virgil Roderick supported Mr. Dodd, both being in conventional black.

The bride received a fine array of presents, among them a beautiful necklace of gold and precious stones, presented by the groom's parents, Mr. and Mrs. Wm. Dodd, and made of gold and gems from the mine which Mr. Dodd is interested in at Deer Lodge.

The out of town guests were: L. LeSeuer, of Fergus Falls, grand father of the bride, Mrs. Geo. Bates and son Murray, and Mr. David Berry, of Battle Lake, Mrs. E. T. Nelson and Misses Hazel Nelson and Florence Leach, of Fergus Falls, and Mrs. Gertrude Rogers, of Bemidji.

Both of the young people are well known in Brainerd and a host of friends will join THE DISPATCH in extending hearty congratulations.

#### BENTLEY-NUBBE

A pretty wedding of yesterday was that of Miss Eda M. Nubbe and Carl S. Bentley which took place at the home of Mr. Gust Wapchoitz, of Platt Lake. Rev. J. F. McLeod performed the ceremony in the presence of a large number of relatives and friends.

Miss Nubbe wore a pretty wedding gown of silk tissue trimmed with lace and her flowers were bride roses. Elsie Bentley and Nora Nubbe were the maids of honor and Henry Bentley and Christ Dunneman were best men. The home was prettily decorated with potted plants and autumn leaves.

The young people will make their home in Brainerd, Mr. Bentley being employed at the N. P. shops. They both have a large number of friends in the city who join in extending congratulations.

### MILLION FOR BABIES.

Pittsburg Bachelor Left Fortune to Possible Children of His Cousins.

The will of the late Paul H. Hacke of Pittsburg, art connoisseur, sport and business man, offers his \$1,000,000 estate to his two male relatives, provided they have children, says a special dispatch to the New York World. Hacke was a bachelor. The estate may amount to \$1,500,000. Hacke's maiden sister, Miss Sarah Hacke, to whom he was devotedly attached, receives an annuity of \$3,000.

Paul and William George are the two male relatives to whom Hacke looked to perpetuate the family. They are his second cousins, aged twenty-one and eighteen.

The estate is to be divided equally among their children, if they have any. If not it will go to the Westmoreland hospital at Greensburg, the St. Paul's Orphan asylum of Butler and the Grace Reformed church of Pittsburg.

#### "Quincy Adams Sawyer"

In the four years that the great New England drama "Quincy Adams Sawyer" has been before the public it has been stamped by a succession of audience all over the country as "the best, the sweetest, purest and most wholesome of rural dramas." Such success as has been won by this drama is vouchsafed to very few of the plays that use the stage and can be won by only a play that appeals to the best elements of the community. Yet "Quincy Adams Sawyer" preaches no sermon except the eternal one of the Golden Rule. It's sweet, clean story is strong in unconventional fashion, its humor is natural and wholesome but none the less convulsing; its characters are types, not caricatures. These are some of the reasons for the unprecedented popularity of "Quincy Adams Sawyer." Others will be apparent to those who witness the play at the opera house tomorrow night. Seats now on sale at Dunn's drug store. Prices \$1.00, 75, 50, 25c.

#### FARM, HOME AND GARDEN

There is on exhibition in the window of J. M. Elder's office a mammoth squash raised by Seth Phillips, at Sylvan. It certainly makes a good showing of what this section can do if the land is given proper cultivation.

There has been a marked improvement in the live stock in Crow Wing county the past few years but there is room for much more. The writer was somewhat amused by a remark he heard a farmer make the other day. He was speaking of the small amount received for stock and told of one farmer who sold nine head for \$148. "They were good big cattle," he added, "some of them would weigh seven or eight hundred pounds." To one who was raised where a three-year-old steer which did not weigh ten hundred pounds was under the average size the remark showed plainly the need of education in stock raising.

The use of good males in all lines of stock raising is imperative. The size of the herds here is not often large enough to justify the purchase of a thorough bred sire by each farmer but by co-operation it can be done with profit to each one. Either they can unite in the purchase of an animal and keep him by turn, or one can own him, the others agreeing to use him and pay a reasonable amount for his services. Such a course in a few years would put the stock products of Crow Wing county on an equality with southern Minnesota, Iowa and the Dakotas.

Possibly Northern Minnesota cannot raise stock quite so cheaply as the sections where the winter feeding period is shorter, but that is all the more reason why farmers should keep only the best stock obtainable. It costs practically as much to winter a scrub weighing 500 pounds as it does to winter a good smooth steer or heifer weighing 800 or 900. It certainly costs more to winter one of the former under the jack pines than it does to winter the latter in a warm stable, whether the stable be built of straw, logs, sawed lumber or concrete.

It is an old saying among New England farmers that a barn will pay for itself in a few years, and nothing truer was ever said of farming. It is often impossible to build a big barn when a farmer is starting in, but a log barn is obtainable by some hard work on almost any farm in Crow Wing county. At the price hay brings here the hay wasted in one winter in feeding a dozen cattle in the snow would, if sold pay for the hired labor necessary to assist the farmer in putting up a log barn. There is an amount of comfort in taking care of stock which is itself comfortable which appeals to any farmer who has once tried it.

### GAME OF THE FUTURE.

Why Lasker Believes Chess Will Become the Universal Pastime.

Emanuel Lasker, chess champion of the world, contributes an article to the September number of the North American Review entitled "The Game of the Future," in which he describes the game of chess and points out the features in it which, in his judgment, are bound to make it eventually the universal pastime. We quote:

"A beginner in chess moves without a purpose. He is guided by chance only. After many trials he learns that it is profitable to capture opposing men and detrimental to lose his own, since the men represent so many resources for effecting the checkmate. Thus an appreciation of the first strategic law, that superiority of force is an advantage, is slowly evolved in him, but at the outset in a very imperfect state. Yet, such as he knows it, it serves the very useful purpose of surprising him by its failures to apply. He is thus led to think, and he finally comprehends that it is not the number of men that decides the issue, but the activity which they display in the fighting. He sees that greater activity usually goes with the greater number, but that it depends on other factors also. He tries to detect these other factors. The mystery incites his imagination. Each game for him is a search for the truth which he dimly perceives, but which ever seems to evade capture."

### NOTABLE MEDICAL DISCOVERY

Of Special Value to Many Here in Brainerd

One of the most notable discoveries and one that undoubtedly appeals more than anything else to many people here in Brainerd is the combination of stomach remedies in the Mi-o-na treatment. This prescription has worked wonders, and there is now no excuse for anyone suffering indigestion or weak stomach.

It acts specifically upon the muscles of the stomach and bowels, strengthening and stimulating them so that they readily take care of the food that is eaten. It also increases the flow of gastric juices, thus getting from the food the nourishment that is necessary for health and energy.

The symptoms of indigestion are numerous, such as distress after eating, flatulence, heart-burn, sick headaches, dizziness and irritability. These are all dispelled by a few doses of Mi-o-na when the trouble is recent, but just as surely in long standing and chronic cases if the treatment is followed for a reasonable length of time.

So positive are the good effects following the use of Mi-o-na that the remedy is sold by H. P. Dunn under an absolute guarantee to refund the money if it should fail to cure. 110-115-117

### NEED NOT PAY TONNAGE TAX

Foreign Vessels Carrying Coal for United States Navy Immune.

Washington, Oct. 11.—Foreign bottoms carrying coal for the United States navy will not be compelled to pay the tonnage and light dues assessed under regulations of the department of commerce and labor. A decision to this effect was rendered Thursday by Attorney General Bonaparte, the question having been referred to him when the British tramp steamer Fernside, carrying coal from Newport News to San Francisco, protested against the payment of the charges after having carried a cargo of coal to Bremerton navyyard on Puget Sound. As the enforcement of the tax meant that the navy department would be called upon to pay a higher amount for the coal to be used by the Atlantic fleet in its voyage around the horn the problem was a serious one.

### MAE WOOD'S DIVORCE SUIT

Alleged Marriage Certificate Must Be Produced Before Trial Proceeds.

New York, Oct. 11.—An order directing Joseph Day Lee, a lawyer, to produce the alleged marriage certificate and a letter in which his client, Mae Wood-Platt, alleges Senator Thomas C. Platt admits his marriage to her, was made by Justice McCall Thursday. The proceeding was preliminary to the trial of Miss Wood's suit for divorce from Senator Platt, which is on the calendar for early in November.

Council for Senator Platt told the court that he was ready to go on with the trial at once and asked that the documents be immediately produced. The plaintiff's counsel replied that Miss Wood held the papers and that it would require ten days to bring them East. A postponement of ten days finally was agreed upon.

#### Roosevelt Guide Is Insane.

Ogdensburg, N. Y., Oct. 11.—Michael Cronin, one of the president's Adirondack guides, has been adjudged insane and sent to the state hospital. They made the sixteen miles in one hour and forty-three minutes.

"Yes, mamma," she sobbed, "I have thought of that, and that's the reason I want to save all my things!"

#### Court to Set Pettibone Trial Date.

Boise, Ida., Oct. 11.—At a conference with the attorneys in the Pettibone case Judge Wood of the district court announced that he would make personal inquiry into the condition of the prisoner, who is demanding trial in spite of the fact that he continues seriously ill in a hospital here. Judge Wood said that as the attorneys were unable to agree he would determine matters on his own motion.

"Halibut, my dear."

"Oh," replied the child, "I thought perhaps it was mermaid."

## DETROIT AGAIN LOSES

Suffers Second Defeat at the Hands of Chicago.

### VICTORS SCORE FIVE RUNS

While the Vanquished Are Able to Bring But One Man Across the Home Plate—Game Failed to Attract the Usual Large Crowd.

Chicago, Oct. 11.—The Detroit American league team suffered its second successive defeat at the hands of the Chicago Nationals Thursday, scoring only one run.

Chicago tallied five times, four of the runs being the result of solid hitting. Siever started to pitch for Detroit, but the locals took kindly to his curves and batted him out of the box in four innings. Killian then took up the work and was found for three hits and another run in the fifth.

Detroit tried vainly to break through the Chicago defense. Reulbach pitched strongly in the opening innings and when he showed signs of weakening in the fifth and sixth innings his team mates came to his rescue with fast double plays.

For some unexplainable reason the game failed to attract the usual large crowd to the grounds. The official attendance figures made the total 13,114. At that the crowd was more demonstrative than the big outpouring of Wednesday. Reulbach's brilliant pitching in the early innings and the crashing hits of Steinfield, Evers and Sheekard roused the Chicago partisans, while the Detroit contingent cheered the more heartily so that the visiting team might not think itself deserted.

The play was much faster than on the previous days. Only thirteen batters faced Reulbach in the first four innings, while the Chicago hitters lost no time in straightening out Siever's benders. The first run came in the second inning when Steinfield lined the ball over the third base, reaching second on the hit. Kling sacrificed and Evers slung a double over first base.

Steinfeld scored but Evers was left when Schulte and Tinker were retired on infield grounders.

#### Made the Result Certain.

With Reulbach going at top speed that one run looked good enough to win but just to make the result certain the Nationals went after Siever's curves savagely in the fourth. Steinfield flew to Jones, but Kling sent a hard single to right. Evers sent him to third with another drive to the same territory and Schulte dropped a fly safely in center, Kling scoring. Evers tried to make third on the hit but was caught and run down by a swarm of Detroit players, Schulte advancing to second. Tinker lifted a high fly to Jones, who dropped the ball, Schulte scoring and Tinker going to third. Reulbach drove a low ball over second base, sending Tinker home. Coughlin then caught Slagel's high fly.

Manager Jennings decided that Siever had failed to make good, so Killian appeared in the next inning. He was greeted warmly enough, two doubles and a hard single being gleamed off his delivery. One one run resulted, however, as the hits alternated with outs. Chance secured the first double and consequently scored the run.

Detroit lost its first chance to score in the fifth because Tinker intercepted a liner and turned the catch into a double play. Rossman was first up and was safe when his hard hit grounder bounced off Tinker's ankle. Coughlin was passed and Schmidt's grounder down the first base line advanced both runners. O'Leary then smashed a hard liner at Tinker and the latter jumped, caught the ball and

stepped on, second base ahead of Coughlin, retiring the side.

Their run came in the next inning. Killian made the first clean hit off Reulbach. Jones received a base on balls and then was doubled with Schaefer in a lightning play, Steinfield to Evers to Chance. Crawford and Cobb followed with hits, Killian scoring on the former, but Slagle went back to the stands and captured Rossman's effort.

The Nationals have gone to Detroit, accompanied by a small army of enthusiasts. Two games will be played in the Michigan city.

The receipts Thursday were \$16,212.50, divided as follows: National baseball commission, \$1,621.25; players, \$9,727.50; each club, \$2,431.85.

#### Reply to Sweden's Inquiry.

Stockholm, Oct. 11.—The reply of the New York Yacht club to the inquiry of the Royal Swedish Yacht club regarding the conditions under which a challenge for the America's cup by the latter would be accepted, has been received, but Rear Admiral Halgg, who has the matter in charge, refused to divulge the contents of the reply until after a meeting of the yacht club.

## WOMAN HAS DISAPPEARED

Self-Confessed Thief Was Released on Bond.

Chicago, Oct. 11.—Mrs. Charles J. Romadka, wife of a rich manufacturer of Milwaukee, and self-confessed thief, disappeared from Chicago following her release on \$9,400 bonds. Charles Jones, the negro with whom Mrs. Romadka said she worked, still is in a cell. Mrs. Romadka appeared in court accompanied by Attorney John F. Donovan of Milwaukee and Clement Romadka, her brother-in-law. After the formal arraignment Attorney Donovan secured a continuance of the case until Oct. 15, and Albert J. Ward, a brother-in-law of Clement Romadka, signed the bond.

Mrs. Romadka and the attorney immediately entered a cab and drove rapidly to the Sherman House. They left there a few minutes later and have not been seen since.

Early in the day the woman confessed to a sixth robbery. She said that this occurred at the home of Mrs. Gustave Hessert, 1927 Arlington avenue, Chicago. She added that she might have entered other homes, but had no recollection of having done so. The police believe Mrs. Romadka has returned to Milwaukee.

### BIGLOW CONFESSES.

Admits Writing Threatening Letters to Business Houses in Denver.

Denver, Oct. 11.—Kemp V. Biglow, the young clerk from Bryan, O., who mailed dynamite packages last Monday to Governor Henry A. Buchtel and several prominent citizens of Denver, has confessed that he was also the author of letters mailed on Aug. 29, last, to the Burlington railroad, the Moffatt road, the Adams Express company, the Daniels and Fisher stores, the May Shoe and Clothing company and to Postmaster Paul Sours, demanding amounts varying from \$10,000 to \$50,000 and aggregating \$190,000. These letters contained threats that unless the demands were complied with passenger trains would be wrecked with dynamite and the Daniels and Fisher and May stores and federal building in this city would be blown up and C. M. Day, local agent of the Adams Express company, would be killed within thirty days. He will be turned over to the federal authorities and prosecuted on the charge of using the mails to defraud.

#### Completed Job This Time.

Birchwood, Wis., Oct. 11.—The post-office safe here was blown open by robbers and about \$400 in stamps taken. Twenty-five dollars was also taken from the Loomis store till in the same building. This is the second time the robbers have visited this postoffice in a few months. The last time they were scared away in the midst of the job.

## DISCUSS CHURCH PROBLEMS

Supreme Bodies of Protestant Episcopal Church Hard at Work.

Richmond, Va., Oct. 11.—Both of the supreme bodies of the Protestant Episcopal Church of America in triennial convention here wrestled all day long with church problems and the meetings of the auxiliary organizations, notably the conferences of Sunday school workers, added to the interest in the great gathering. The convention will adjourn on Oct. 19.

The house of bishops adopted a report uniting the diocese and missionary districts into provinces.

The house of bishops passed a number of resolutions, changing the boundaries of mission districts and dioceses in the West, appointing new bishops to preside over them and in three instances creating new missionary districts. The bishops' action in regard to the changes is final, they being invested with authority irrespective of the house of deputies.

## ROOSEVELT KILLS A DEER

Brings Down a Fine Buck With a Long Range Shot.

Stamboul, La., Oct. 11.—A courier who arrived from the president's camp on the Tensas late Thursday evening reported that the president had killed a fine buck, but otherwise the hunt Thursday was barren of result.

The animal was brought down from a long distance and fell after the first shot. The condition of the ground is much improved since the rain and the weather is still cool enough to render the exercise delightful to the president.

The president will discontinue his bear hunt for two days in order to go after catamounts. A fine pack of fifteen dogs belonging to Dr. Miller of Greenville, Miss., with the doctor himself, has arrived at Alsatia and will be taken to the president's camp.

### SIXTEEN MEN PERISH.

Arctic Steamer Frithjof Lost Off the Coast of Iceland.

Copenhagen, Oct. 11.—The Arctic steamer Frithjof, which accompanied the Wellman Chicago Record-Herald expedition to Spitzbergen, was lost off Cape Langenes, Iceland, Oct. 5. The captain and fifteen of her crew were drowned. The engineer clung to a plank, on which he drifted ashore. The Frithjof was homeward bound to Norway, having been damaged by ice, and consequently was unable to withstand a storm which she encountered off Cape Langenes.

### BACK GIVES OUT

Plenty of Brainerd Readers Have This Experience

You tax the kidneys—overwork them—They can't keep up—the continual strain.

The back gives out—it aches and pains; Urinary troubles set in.

Don't wait longer—take Doan's Kidney Pills.

Brainerd people tell you how they act.

David Northrup, 918 Front St., Brainerd, Minnesota, says: "Backache and kidney complaint were of short duration in my case after I began using Doan's Kidney Pills, procured at H. P. Dunn & Co's drug store. There has been a dull steady aching in my back and lameness across the loins. It only required one box of Doan's Kidney Pills to regulate the action of the kidneys to a normal condition, remove the backache and impart tone and strength to the parts affected. From the results I obtained I believe any sufferer from kidney complaint will find in Doan's Kidney Pills a most valuable remedy."
